EDUCATION

B.Tech in Computer Science and Engineering

2024 - Present

Dr. B. R. Ambedkar National Institute of Technology - **CGPA - 8.86/10**

Jalandhar, India

Senior Secondary

2022 - 2024

Varshana Higher Secondary School - **Percentage - 96.4%**

Vidisha, India

SKILLS

Languages: C/C++, Python, JavaScript, SQL, HTML, CSS.

Tools: Linux, Git, GitHub, Wireshark, tcpdump, Suricata, Metasploit, ReactJS, NodeJS, Express, Mongoose, Streamlit, Scikit-learn, TensorFlow/Keras, Pandas, NumPy, Matplotlib.

Relevant Courses: Computer Networks, Data Structures & Algorithms, Design and Analysis of Algorithm, Database Management System, Object Oriented Programming.

EXPERIENCE

Head, Cyber Security Club, NIT Jalandhar

2025 - Present

- Leading the Cyber Security Club, organizing technical workshops, CTFs, events, and cybersecurity awareness initiatives.
- Coordinating with team members to promote hands-on learning in cybersecurity tools and practices.

PROJECTS

Cyber Security Club Website | Web Development

- Tech Stack:** HTML, CSS, JavaScript, ReactJS, NodeJS, ExpressJS, MongoDB, JWT, TailwindCSS.
- Led the development of the official website of the Cyber Security Club at NIT Jalandhar.
- Managed a small development team to design and deploy a responsive and structured web platform with MERN Stack.

IP & Location Info Tool | Cyber Security

- Tech Stack:** Python, Socket Programming, Requests API, JSON.
- Built a CLI tool to resolve domain IPs and fetch geolocation data via external APIs.
- Supports basic reconnaissance and information gathering for network analysis.

Phishing Simulation | Cyber Security

- Tech Stack:** Python, Tkinter.
- Developed a phishing simulation that mimics a login interface to demonstrate social engineering attacks.
- Records credential inputs locally to illustrate phishing risks for security awareness training.

IoT Device Behavior Visualizer | Machine Learning

- Tech Stack:** Python, Streamlit, Scikit-learn, TensorFlow/Keras, Pandas, Matplotlib.
- Built an ML-driven system to analyze IoT device telemetry and detect anomalous behavior using an Autoencoder model.
- Developed an interactive Streamlit dashboard to visualize device activity, clusters, and anomaly timelines for easier analysis.

ACHIEVEMENTS

- Google Cybersecurity Professional Certificate**
- Participant – Hack on Hills 7.0, National Hackathon organized by NIT Hamirpur.
- Academic Merit: State Merit (Class 12) – Rs. 25,000 award; District Rank 2 (Class 10).
- Rank 95, IIT-BHU (E-Cell) All India Coding Competition (JavaScript).
